**Instructions**

1. Measure 1 cup of flour and 1/2 cup of salt.

2. Mix them together in a bowl.

3. Add in 1/2 cup of warm water, adding more as needed to get the dough to become a firm, moldable texture—similar to playdough.

4. Once your dough is formed, begin to shape it into designs! Use cookie cutters or other tools available in your kitchen to create shapes.

5. Once your designs are constructed, place them onto your cookie sheet.

6. Bake in your oven at 150 degrees Fahrenheit. Flip or rotate your pieces as needed to allow them to bake evenly. The amount of baking time will depend on the size and thickness of your pieces.
