Recycled Art Inspired by Louise Nevelson

Gather lots of cardboard recycled materials: toilet paper tubes, paper towel roll tubes, egg cartons, and I inserts from packaging.

Find a shallow cardboard box to use as the base, such as an old shirt box, shoe box, etc.

Layer recycled materials into the box.

Hot glue shapes into the cardboard box. You may also use Elmer's Glue or similar liquid glue, and let dry for 24 hours.

Use tempera or acrylic paint in one color to make the piece monochromatic.
