Paper Peeps® Bunny

1. Color in the Peeps® bunny and circles then cut them out with scissors.
2. Fold all of the circles in half then glue three of them together in a fan shape.
3. Glue the three attached circles to the bottom of the bunny.
4. Repeat on the other side.

This adorable bunny stands up on its own, but you can also punch a hole through the top then loop a string through to hang it as an ornament!
