Splat Drawing Exercise

Supplies

- Paper
- Ink or Watercolor Paint
- Pen, Pencil, or Marker
- A Straw

Directions

1. Collect your supplies.
2. Drip one drop of ink or watercolor paint onto your paper.
3. Using your straw, blow the ink or watercolor paint around, so that it creates a splat shape.
4. Wait for ink or watercolor paint to dry.
5. Once dry, use your pen, pencil, or marker to begin drawing, adding on to your splat, and making it into a creature or object. This will be a fun test of your creativity.
6. Keep adding details until you feel your splat drawing is complete. While this is a great drawing exercise to help develop your creativity, it turns into a wonderful piece of art as well!
