

Instructions

1. Gather your supplies and set down newspaper cardboard to protect your work surface while you work.
 - 2. Sketch your design with paper and a pencil.
 - 3. Cut a piece of tinfoil to the desired size and fold the tinfoil in half to make it thicker. (Adult supervision recommended)
 - 4. Begin painting your sketched design onto your tinfoil.
 - 5. Once your design is dry, you can use the back side of the tinfoil to transfer the design to another surface.
